Source type	Paper (review)
Link / File	https://www.researchgate.net/publication/324158209
Craft applicability	Wood (general conservation/repair — not carving-process specific)
Primary Why-theme	10. Repair (Failure, Repair and Quality)
Process stage	Not applicable — no matching Delhi process stage exists
Questions answered	Why do wooden objects need specific, compatible repair materials rather than generic fillers/adhesives?
Evidence level	E4 (general/indirect — a review, not tied to a Delhi-specific observation)
Relevance note	**No Delhi craft observation supports this entry.** This is a general wood-conservation review, included only because you asked for a ResearchGate source; it should not be logged as a real WBC-0024 until an actual Delhi repair practice is documented.
