Title	Adverse Health Manifestations in the Hands of Vibration Exposed Carpenters – A Cross Sectional Study
Source type	Paper
Link / File	https://www.ncbi.nlm.nih.gov/pmc/articles/PMC8082821/
Craft applicability	Wood (Kallakurichi hammer-and-chisel carving with kotta bali mallet)
Primary Why-theme	9. Vibration
Process stage	Outline cutting, Murti outline cutting, Background cutting
Questions answered	Why does continuous hammering with the kotta bali mallet on situli/doculi/kituli cause hand fatigue and long-term strain?
Evidence level	E3
Relevance note	Documents neural, vascular and musculoskeletal symptoms in hand-tool workers exposed to repeated impact vibration, supporting the report's recommendation to wrap tool handles in vibration-damping material and replace traditional mallets with dead-blow mallets.
